COMMENTS FROM THE TOWN MANAGER'S OFFICE

The county road that goes by the Paul Carter farm and Harold Carver farm has been officially closed by the Oxford County Commissioners. The county commissioners held a hearing in Bethel last August and there was no opposition so the road was closed. The road will not be plowed and later on it will be fenced off. From now on the road should not be used.

The Jaycees have taken over the project of Christmas street lighting and have the lights up.

There will be a meeting in Portland in December regarding the pollution of the river. Representatives of the federal government will be in attendance along with members of the Maine Water Improvement Commission, the New England Interstate Water Pollution Control Commission and the New Hampshire Water Pollution Commission. I will have the date in a future column so that any interested citizens in town may attend.

The fire station study committee will meet around the first week of December. Most of the information for the report has been gathered and the report will be drafted for presentation to the selectmen.

State Grants Reduction in Bethel's Preliminary Valuation for this Year

The assessors of Bethel were not satisfied with the preliminary figures for the 1962 state valuation due to the \$200,000 increase over the 1960 state valuation. Towns don't have to pay a state tax any more but the figure is still used to determine the county tax and the amount of subsidy the town will receive for education. The school department figured they would lose \$10,000 state subsidy with the increase. The state valuation is also used to determine a town's share of costs in a school administrative district. An increase in state valuation increases a town's share of costs in a school administrative district. Bethel isn't a member of a school administrative district, but it might be some day.

When comparing the increase of the Bethel state valuation with other towns in Oxford County, the assessors thought the \$200,000 was too large. The state uses a formula to deter-

mine the state valuation so it is not easy to get it changed. It was brought to the attention of the State Bureau of Taxation that about \$100,000 of the increase of the town's valuation was personal property that has since left town and should not be used to get a true valuation of the town. The State Bureau of Taxation agreed to deduct the \$100,000 from the formula. There were also two errors in the figures used by the state to determine the ratio of sales price to town valuation. This sales ratio figure is also used in the state formula for state valuation. The sales ratio figure was changed to help the town.

The final figure that the State Bureau of Taxation has proposed for Bethel is \$3,750,000. This is an increase of only \$150,000 over the 1960 figure instead of the original increase of \$200,000. This should be a substantial saving for the town.

HOLIDAY STREET LIGHTS TO BE ON FULL MONTH

Sunday the Bethel Jaycees, with a crew from the Central Maine Power Co., installed the Christmas street lights. Due to the high cost of wiring and fusing, the lights will not be turned on until Dec. 1. They will be turned off after the New Year.

Knowing the right answers to these questions will help you become a better driver and help make Maine's streets and highways the safest in the nation.

Please direct inquiries to the Maine Highway Safety Committee, Box 567, Pearl Street Station, Portland, Maine.

Select the best answer:

Question:
What do accident records show? (a) Practically every traffic collision involves at least one violation. (b) Most accidents are caused by inexperienced drivers. (c) Law enforcement has little impact on number of accidents. (d) Most accidents are due to bad road conditions.

Answer (a)

Accident records show that practically every traffic collision involves at least one violation. This fact alone demonstrates the protective nature of our traffic laws and regulations. It also shows that traffic violators are a hazard to everyone.

In any civilized society, it is necessary that there be rules of acceptable behavior. Without them there would be bad feelings, chaos, and many accidents. Traffic laws are a necessary basis for convenient, safe, and efficient use of our streets and highways. Unsafe drivers and careless pedestrians make the road hazardous for others. Most driving and walking rules, or "rules of the road," have

CARD OF THANKS

We extend our thanks to our many friends, who helped make our housewarming a happy surprise, one not to be forgotten.

CARD OF THANKS

To friends, neighbors, residents, and organizations in and about the Bethel area. Jesus says "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me." Matthew 25:40. A simple "Thank You" is all we can say. It is very inadequate for the many acts of kindness, blood donations, boxes of food, letters, cards and money received by us during our recent illness and hardship. We can never repay each one individually so we will try to pass it along to others in their times of need. We are very grateful for what everyone did for us.

TODAY'S meditation

Read Acts 12:1-11
Upon this rock I will build my church; and the gates of hell shall not prevail against it. (Matthew 16:18)

Following World War II, a pioneer Australian pastor revisited the scene of his early labors in the Solomon Islands. A scene of ruin and devastation met his gaze. As a result of warfare, the mission station had been utterly destroyed. The missionary's heart sank within him. Had all the consecrated labor of the years been in vain?

Then he went out through the jungle into the villages, where he talked with the people. He found that the faith, devotion, and courage of the Christians were stronger than ever they had been. During the dark years of the war, these faithful Christians had continued to meet together for Bible study and prayer.

This missionary realized that though the outward structure of the Christian organization had been destroyed, the church lived on in the hearts of the Christian people of the Solomon Islands.

PRAYER: Eternal Father, we bless Thee for Thy church. We beseech Thee to help us consecrate ourselves to the service of Christ, our Savior. By our lives may the witness of the church be more effective. In the name of the Master, who taught us to pray, "Our Father who art in heaven. . . Amen."

Thought For The Day
The church of God is indestructible and eternal.

20 SECONDS with the NAZARENE

Already Christmas decorations are going up, stores are lined with toys and gifts, and we hear the familiar carols.

But Christmas is more than this! It commemorates the giving of God's highest revelation in Christ His Son. "God hath in these days spoken unto us by His Son." In all of our celebration, let us not miss the redeeming message. (Quotation from Hebrews 1:2)

THANKSGIVING SERVICES AT CHURCH OF CHRIST, SCIENTIST, AUBURN

Thanksgiving Day began with hymns and a Bible lesson for those attending services at First Church of Christ, Scientist, Auburn and Lewiston.

The traditional Christian Science service also included the reading of the Thanksgiving Day Proclamation of the Governor of the State of Maine and a special period during which many members of the congregation stood up to say how grateful they were for what God has meant in their lives.

Among the Bible readings on the subject of "Thanksgiving" was this verse from Ephesians 1:3: "Blessed be the God and Father of our Lord Jesus Christ, who hath blessed us with all spiritual blessings in heavenly places in Christ." Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, included this sentence: "To those leaning on the sustaining infinitude, today is big with blessings."

The closing hymn was number 283 from the Christian Science Hymnal: Praise we the Lord, for His mercy endureth forever.

COUNTRY FLAVOR

BAKING DAY

In the days of iron gem pans and before Saturday became part of a high-pressure week end, the last day of the week was baking day on farms and in village homes. If you remember buffalo robes and soapstone bed warmers, you probably remember the nostrilting fragrances when Mother was baking on Saturday.

A lad who was wheelbarrowing in the last of the wood or working in the garden, had to make frequent trips to the kitchen. The tantalizing aroma of gingersnaps, bread fresh from the oven, pies, cakes and turnovers pulled a boy to the scene of operations. Besides, when one was working hard, he needed nourishment at frequent intervals; and if over-conscientious sisters challenged, he could say that he wanted to make sure of enough wood in the woodbox.

It was a stove top dinner on Saturday—sometimes beef stew or tomato chowder, for Mother needed the oven for baking. There were apple and squash pies cooling on the shelf by

the sink, cookies and turnovers in long rows at the back of the old cherry leaf table; and plump, brown-crust loaves of bread at the front, together with a big chocolate cake with plenty of white frosting.

A handful of cookies was always acceptable. A boy expected the heel of a warm loaf of bread, well-buttered and with plenty of that old-fashioned, tangy molasses. Sometimes if luck was running, a lad could get a turnover or two. Saturday was always baking day on the farm and a 12-year-old was naturally interested. It may be age, but there are men today who believe that modern foods do not have the flavor that Mother knew how to generate in those less hurried and more peaceful days of yesteryear.

BETHEL BUSINESS DEVELOPMENT TO BE PREDICTED

It is anticipated that the business development in Kingfield that resulted from the outstanding success of the Sugarloaf Ski Area will be paralleled here in Bethel as a result of the growing popularity of the Sunday River Skiway.

Knowing that Bethel business would be interested in the

background of the Sugarloaf development over the past several years, Al Bolduc, President of the Sugarloaf Area Association, has been asked and has agreed to give the members the story of this development and the part the Association has played in its success. Mr. Bolduc came to Sugarloaf in 1955 from Hartford, Conn., and operates the Sugarloaf Ski Specialist store.

Non-members will be welcome at the meeting of the Chamber of Commerce at Sudbury Inn next Tuesday evening as well as at the dinner preceding the meeting.
